

GENESIS JIM C. CUASAY

Batangas City, Philippines

0976 525 6603 | cuasaygenesisjim@gmail.com | linkedin.com/in/genesis-cuasay | github.com/jimcsy

EDUCATION

Batangas State University - The National Engineering University
Bachelor of Science in Computer Science - Dean's Lister

2023 - present (Expected 2027)

TECHNICAL SKILLS

- **Languages and Technologies:** Java, Python, C++, Dart, JavaScript, HTML, CSS, PH
- **Frameworks and Tools:** Flutter, Arduino, WordPress, Figma, Laravel, React, Google Workspace, Git, Github
- **Databases & Cloud:** MySQL, Firebase, SQLite, PostgreSQL

TRAINING AND EXPERIENCES

GCash (Mynt - Globe Fintech Innovation Inc.)
CX Governance Intern

Taguig City, Metro Manila
May 2026 - July 2026

- Engineered an automation PoC to resolve a 78% error rate in training requests, targeting 0% process discrepancies.
- Developed data pipelines and scripts to fully automate the manual processing of user responses.
- Built dynamic reporting dashboards to consolidate CX governance data and ensure 100% accuracy.

Center of Technopreneurship and Innovation - BatStateU Alangilan
Research Development Software Engineer

Batangas City, Batangas
July 2026 - August 2026

- Co-engineered a responsive, public-facing tourism web application using React and Vite, implementing a component-driven UI and global theming framework.
- Optimized UI rendering performance and maintained cross-browser stability by systematically debugging complex CSS layouts and React state inconsistencies.

BCRV - Tech-Voc, Inc.
Java Development Trainee

Calapan City, Oriental Mindoro
July 2025 - Sept 2025

- Executed an intensive 240-hour development sprint, culminating in the TESDA Programming Java NC III certification.
- Engineered Java applications by rigorously applying core OOP concepts, clean code architecture, and exception handling.

Knowles Training Institute Pte Ltd
Information Technology Intern

Singapore
August 2025 - Sept. 2025

- Spearheaded the development of WordPress-based content management systems during a 120-hour remote internship.
- Optimized site navigation and streamlined cross-border digital collaboration workflows for distributed teams.

LEADERSHIP AND ORGANIZATIONS

- **Member**, Junior Philippine Computer Society Alangilan Chapter (A.Y. 2024 - Present)
- **3rd Year Representative**, College of Information and Computing Sciences - SC (A.Y. 2025 - A.Y. 2026)
- **3rd Year Representative**, Association of Committed Computer Science Students (A.Y. 2025 - A.Y. 2026)

PROJECTS

Project AGAPAY: Arduino-based guided Agitation for Protecting Aquatic Yields
Arduino, C++, IoT Sensors, HTML, CSS, Javascript

- Engineered an IoT prototype using Arduino to monitor aquatic variables, implementing automated agitation logic to increase oxygen levels and prevent stagnation.

BeeHive: A Programming Learning Management System
Flutter, Firebase, Python, Dart, Figma

- Collaborated with a development team to co-architect a mobile LMS with a gamified UI to enhance Python retention. Integrated progress tracking and modular tutorials to streamline the learning curve for beginners.

CERTIFICATIONS, AWARDS, AND PROFESSIONAL DEVELOPMENT

- **Certification:** TESDA National Certificate (NC) III in Programming (Java) (August 2025).
- **Top 10 Finalist (out of 196 teams nationwide):** GCash ImaGNation 2025 Hackathon Challenge.
- **Participant, KadaKareer x Home Credit Hackathon:** AI in UX for Fintech Challenge.
- **Seminar Attendee:** Sui MOVE in Campus: Blockchain Fundamentals and Applications (Sept. 2025)
